

Benchmarker's impressions

(I benchmarked EQE 2017, 2018, 2019 and 2021)

1

No going back to paper-based EQE!

Computer-based exam reflects the job.

Copy-pasting!

I would've given a lot for

- a) type-written exam, and
 - b) having the legal texts in electronic form.
-

2

2

No going back to exam centres!

Less hassle!

No travel = no snowstorms, no visas to apply for, no 'too cold in the exam centre', etc. etc.

(Costs of travel may be quite high.)

Decentralised exams are fairer.

3

3

4 hours are too much ☹️

Sitting an exam is not like work.

You can't "get up & go get coffee".

We need to test "the same things" with shorter papers.
